

**Current list of passenger cars in which the
Cosy Tot ISOFIX Seat
is approved for use.**

(Provided the passenger cars are equipped with
or can be retrofitted with ISOFIX anchorages)

The Isofix base may only be used in the following vehicles providing approved Isofix points are fitted and available. If you are in any doubt about the vehicle's Isofix anchorage points or access to them then please contact your vehicle manufacturer for advice.

The fitted angle of the Isofix base will be dependent on the angle of the vehicle seat and this will mean that some applications are more reclined than others. Although crash protection is not affected you may wish to consider this issue when assessing the Cosy Tot Isofix in your car.

Notes

- 1 Storage compartment lid must be removed and the foot prop must be extended to reach the floor
- 2 Due to the rearward location of the Isofix anchorage points and interaction with the vehicle seat upholstery, care must be taken to ensure that Isofix is correctly latched.
- 3 Middle row of seat in forward most position
- 4 Front seat passenger airbag MUST be switched off
- 5 Consult vehicle manufacturer for access to Isofix anchorage points through vehicle seat.
- 6 Vehicle seat in rear most position.
- 7 Vehicle seat in rear most position to avoid contact between foot prop and storage compartment lid.
- 8 The front vehicle seat must be moved fully forward which is not then recommended for front passenger use in this position.
- 9 Leave storage bin lid in place.

Customer Service Helpline

Open 8:30am - 5pm Monday to Thursday, 8:30am - 4pm Friday
